## PROFESSIONAL SUMMARY

---

Analyst with 2+ years of experience in data analytics, data quality, business intelligence, and data-driven problem solving, backed by an MSc in Data and Decision Analytics. Proficient in Python, SQL, Power BI, and Excel, with experience in data validation, data quality, statistical analysis, data modelling, and dashboard development. Experienced in analysing large datasets, identifying data quality risks, applying privacy considerations, and translating complex findings into clear insights for stakeholders.

## WORK EXPERIENCE

---

### Data Analyst | Reach Capital | Remote | Aug 2026 - Present

- Integrating and analysing financial and market data using **Python, Excel, and Power BI**, developing structured data models and interactive dashboards to monitor KPIs, business performance, and market trends.
- Translating business requirements into analytical solutions**, applying data analysis and financial research to identify trends, generate actionable insights, and support data-driven investment decisions.

### Data & Business Analyst | FootWorld | India | Jun 2026 - Present

- Leading the digitisation of retail operations, evaluating POS/GST-billing vendors and defining product, inventory, and customer data requirements to enable future sales and inventory analytics.

### Product Description Data Acquisition Specialist | Kingfisher (FTSE 100) | United Kingdom | Aug 2024 - Jan 2026

- Managed the collection, validation, and structuring of large-scale e-commerce product data across **20+ concurrent projects** using **Advanced Excel**, ensuring accurate and reliable data for reporting and analytics.
- Improved data quality by developing Excel validation frameworks using **XLOOKUP and Pivot Tables** and resolving data discrepancies through root cause analysis, reducing validation **turnaround time by 50%**.
- Collaborated with cross-functional stakeholders to define data requirements and coordinate product data delivery **across 7+ subsidiaries**, tracking progress using Excel-based dashboards, and ensuring timely delivery.

### Data Analyst | Roke Manor Research | United Kingdom | Jun 2023 - Sep 2023

- Built an **end-to-end machine learning pipeline** analysing **4M+ social media records**, cleaning and transforming large unstructured datasets using **Python** (Pandas, NumPy, NLTK, Scikit-learn) and applying NLP techniques for feature extraction while ensuring GDPR compliance.
- Developed, evaluated, and optimised predictive models including SVM, Naïve Bayes, XGBoost, and Random Forest, achieving **90% feature extraction accuracy and ~70% classification accuracy**.
- Translated complex analytical results into actionable insights, presenting model performance and key **findings to non-technical audiences** to support data-driven decision making.

## PROJECTS

---

### E-Commerce Performance Analytics | SQL, Python, Power BI, DAX | [GitHub Repository](#) | Feb 2026 - Jun 2026

- Built an end-to-end analytics solution across **99K orders, 95K customers, and \$16M revenue** using PostgreSQL, ETL, data modelling, and advanced SQL (CTEs, joins, window functions) to analyse revenue, customer retention, product performance, and operational KPIs.
- Conducted customer segmentation, cohort retention, CLV, and Pareto analysis using SQL and Python, identifying a **3.14% retention rate** and **~65% of revenue** from high-value customers; visualised key findings in a **6-page Power BI dashboard** using DAX to inform retention, product, and shipping recommendations.

## EDUCATION

---

- MSc Data and Decision Analytics (Distinction) | University of Southampton** | Sep 2022 - Sep 2023
- BA Economics (Distinction) | St. Xavier's College** | Jun 2018 - Jun 2021

## TECHNICAL SKILLS

---

**Programming & Analytics:** Python (Pandas, NumPy, Scikit-learn), SQL (PostgreSQL, MySQL, SQL Server), R, Data Cleaning & Wrangling, EDA, Statistical Analysis, ETL, Data Modelling, Data Validation, Root Cause Analysis

**Visualisation & BI:** Power BI (DAX, Power Query), Tableau, Advanced Excel (Pivot Tables, XLOOKUP), Dashboarding, KPI Reporting, Data Visualisation, Data Quality, Data Pipelines, Stakeholder Communication
